

# SIGN UP TO SCHEDULE YOUR PERSONALIZED iTOVi SCAN

It only takes 60 seconds for the scan. You get the full report emailed to you and I'll explain how to read it. It only takes a few minutes. We can meet somewhere or I can come to your home and scan your whole family, including most pets! Want more than just a few minutes? Schedule an oil discovery group and we can go through all the oils smelling, tasting and learning about them and do scans then as well.

## WHAT IS THE iTOVi SCANNER?

iTOVi is your personal essential oil expert.

With just a simple scan, iTOVi will help you understand what products your body wants. The iTOVi scanner combines bioimpedance, pressure sensor, temperature, and Bluetooth® technologies to generate personalized wellness evaluations. Using proven scientific technology and a patented algorithm, iTOVi takes the guesswork out of the growing world of essential oils and supplements.
